```
graph TD; 70[70 IDENTIFY OBLIGATED INCOME STREAMS] --> 72[72 EXECUTE AGREEMENT]; 72 --> 74[74 DETERMINE AGGREGATE VALUE OF OBLIGATED INCOME STREAMS]; 74 --> 76[76 DETERMINE NUMBER AND PER-SHARE PRICE]; 76 --> 78[78 INITIAL OFFERING]; 78 --> 84[84 SECONDARY TRADING]; 78 --> 80[80 DEPOSIT PROCEEDS]; 80 --> 82[82 DEPOSIT REALIZED INCOME]; 82 --> 86[86 SETTLEMENT]; 84 --> 86;
```

The flowchart illustrates the process for depositing income streams. It begins with step 70, "IDENTIFY OBLIGATED INCOME STREAMS", which leads to step 72, "EXECUTE AGREEMENT". From step 72, the process moves to step 74, "DETERMINE AGGREGATE VALUE OF OBLIGATED INCOME STREAMS", then to step 76, "DETERMINE NUMBER AND PER-SHARE PRICE", and finally to step 78, "INITIAL OFFERING". From step 78, the process branches into two paths: one leading to step 84, "SECONDARY TRADING", and another leading to step 80, "DEPOSIT PROCEEDS". Step 80 leads to step 82, "DEPOSIT REALIZED INCOME", which then leads to step 86, "SETTLEMENT". Step 84 also leads directly to step 86.
